Dubai

Day 1: The Burj Khalifa

Morning: It would be best to arrive at Dubai International Airport (DXB) in the evening to get the most out of your vacation.

Hotels are one of Dubai's great talents.

A stay in any one of the hotels would be not only comfortable but also luxurious.

Any of the hotels owned by the Jumeirah Group would be excellent options.

Enjoy breakfast at your hotel before you head off for your first Dubai adventure!

Afternoon: Start off with the most obvious sights in the city.

One of Dubai's shining attractions is its stunning and seemingly inconceivable architecture.

And one of the first things tourists need to do when they head to this impressive city is to check out its two iconic structures that stand like beacons in the desert: the Burj Khalifa and Burj al Arab.

Lucky for tourists, one of the main Dubai tourist attractions are these two buildings, and there are plenty of guided tours that help

India

Day 1: Arrive in Chennai, Transfer to Mahabalipuram Tamilnadu, India

Take an evening stroll along the Mahabalipuram beach.

Welcome to southern India! Meet your driver at the Chennai airport with a welcome in Tamil before setting off down the coast to the village of Mahabalipuram (one hour).

An ancient port of the Pallava dynasty, Mahabalipuram dates back to the seventh century and is famous for its many temples and beautiful beaches.

Depending on your arrival time, drop your things off at your hotel and go for a walk on the beach and enjoy the refreshing sea air. In the evening, enjoy traditional spiced Tamil cuisine.

Day 2: Explore Shore Temple, Transfer to Pondicherry India

Rise early this morning to explore the sandcastle-like Shore temple at Mahabalipuram on the Coromandel Coast. Admire the thousands of sculptures

3.ADVANTAGES & DISADVANTAGES

ADVANTAGES:

1. The users can be able to get the best of their choices for their chosen vacation.
2. The application will provide all the necessary details according to the preferred location of the travelling place..
3. It will also provide the famous things in each and every cities with their respective pictures...
4. Better security protection

DISADVANTAGES:

1. This application portrays only the important places and not others in the travel map..
2. One can't deduce cost in this application..

4.APPLICATIONS

1. This application can be used anywhere across the globe..
2. It is mainly used by the citizens who don't know to choose a good vacation arena..
3. This application is widely used in the countries which are in need of some travelling support..
4. It is essential for all the individuals who need to plan their trip for their weekends..
5. It is mostly used in all travelling stations for the user's successful journey throughout the world

5.CONCLUSION

1. This application is based on travelling app which showcases some of the best tourist places around the globe.
2. The source code is written in Kotlin programming language..
3. The colors and other attributes are all provided in the source code itself..
4. Our application's name is "Discovery"..
5. There will be login page for all the registered and non-registered users.
6. For registered users, they can simply login to the page via their username and password.
7. For non-registered users , they need to sign up for their account and then log in..
8. Once entered , they can have the best travelling app in the world created by us..

6.FUTURE SCOPE
